

Institute of  
Business Administration  
Karachi

*Leadership and Ideas for Tomorrow*

## Development Fund

Over the past couple of years, physical infrastructure of IBA has changed beyond all recognition. Seeing is believing and that's why we have embarked upon an ambitious program of physical infrastructure development and technology up-gradation. On both our campuses we now have very well equipped facilities, providing a vibrant hub for information access, study and the exchange of ideas.

Visionary benefactors have helped shape the Institute of Business Administration into one of the South-Asia's leading centers for academic excellence. The Development Fund provides an opportunity for donors to support the development of physical infrastructure in IBA.

The Friends of IBA Committee is responsible for managing and overseeing this Fund along with the large donors who are co-opted on the Committee from time to time.
