## **Book Launch by IBA Faculty:**

### **“Family Business Transition” by IBA Faculty Dr. Rameez Khalid**

Dr. Rameez Khalid, Associate Professor at IBA Karachi, is a seasoned academic, strategy consultant, and entrepreneur with over 20 years' experience across industry, academia, and the development sector. He has served as Chair of Strategic Planning, Director of Executive Education, and Director of MBA & BBA Programs. Founder of SimulationsX.com, he also serves on corporate boards and authored *Family Business Transition*.

Holding a PhD and MS in Industrial Systems from France and a BE in Mechanical Engineering from NED-UET, Pakistan, he is globally certified in project management (PMP), supply chain (MCIPS), and quality systems (CQSSBB).

Family businesses are the cornerstone of socio-economic growth in many countries. However, various internal and external factors influence the success of such businesses. This book shares theoretical and practical knowledge and experiences from which family businesses can learn and operate creating sustainable and successful family businesses in Pakistan. Family businesses are especially vulnerable in the transition phase from one generation to the next – this remains the central idea of this book. A smooth transition is often difficult to achieve. A lack of confidence,

uncertainty and emotional baggage may ruin the most straightforward succession process. The book provides clear examples and case studies, anchored in local context, on how successful succession can be achieved.

The authors have written this book in such a format that it may act as a practical guide for leaders within a family business. Today's economic realities and unemployment have forced many people to start their own businesses or, on completion of secondary or tertiary training, enter an existing family business. This book provides well-needed guidance to people who want to make their family business a success.

#### **Who is the book's best audience:**

Business Families, Family Business Consultants, Family Business Trainers, Researchers in the domain of Family-Owned Enterprises, Entrepreneurs, Non-family Managers
